Rajkot, Gujarat, India

PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience building scalable web applications using React.js, Microsoft Power Platform (Power Apps, Power Automate, Power BI), and Laravel. Demonstrated ability to translate complex business requirements into intuitive, low-code/no-code solutions that streamline operations and boost productivity. Proficient in data collection, analysis, and visualization with a strong foundation in frontend development, UI/UX principles, and agile methodologies. Passionate about continuous learning and delivering measurable business value through technology innovation.

TECHNICAL SKILLS

Programming & Frameworks	JavaScript (ES6+), PHP, HTML5, CSS3, React.js, Bootstrap 5, Laravel (PHP)
Power Platform & Data	Power Apps (Canvas & Model-Driven), Power Automate, Power BI, Dataverse, SharePoint, MySQL
Analytics & Tools	Data Analysis, Data Visualization, ChatGPT, Gemini, Canva, Google Ads, Git, GitHub
Core Competencies	RESTful APIs, Responsive Web Design, UI/UX Principles, Stakeholder Collaboration, Agile Methodology

PROFESSIONAL EXPERIENCE

Software Developer | **Torridwave Technologies** January 2025 – February 2026

- Designed and deployed Canvas and Model-Driven Power Apps applications, streamlining internal business workflows and reducing manual data entry by an estimated 30%.
- Engineered Power Automate flows to automate repetitive business processes, increasing team productivity and eliminating bottlenecks across cross-functional departments.
- Integrated Dataverse as the backend data layer for Power Apps solutions, ensuring data consistency, scalability, and compliance with organizational requirements.
- Collaborated with stakeholders to gather and translate complex business requirements into efficient low-code/no-code application designs delivered within tight timelines.
- Built interactive Power BI dashboards to surface real-time business intelligence insights, enabling data-driven decision-making for management teams.
- Leveraged Microsoft SharePoint for document management and team collaboration, improving information accessibility and operational efficiency.

Junior Data Analyst | **Ace Software Exports Limited** July 2024 – January 2025

- Collected, cleaned, and validated large datasets to ensure data accuracy and integrity, reducing reporting errors by improving data quality standards.
- Performed exploratory data analysis (EDA) to uncover trends, patterns, and actionable insights that informed business strategy and operational decisions.
- Developed and maintained data visualization reports using industry-standard tools, enabling stakeholders to interpret complex data through clear, intuitive charts and dashboards.
- Automated repetitive data processing tasks, reducing analysis cycle time and freeing capacity for higher-value analytical work.
- Collaborated with cross-functional teams to deliver on-time reporting deliverables aligned with business KPIs and organizational objectives.

- Developed dynamic, responsive single-page applications (SPAs) using React.js, delivering seamless user experiences across desktop and mobile devices.
- Built reusable React components and maintained a clean component architecture, improving code maintainability and reducing development time for new features.
- Integrated RESTful APIs with React frontend to enable real-time data rendering and interactive user interfaces.
- Collaborated with UI/UX designers to implement pixel-perfect designs using Bootstrap 5, ensuring cross-browser compatibility and responsive layouts.
- Participated in code reviews and agile sprint ceremonies, contributing to a collaborative development environment and continuous delivery pipeline.

PROJECTS

PhiTech Solution (React.js, Responsive Web Design, UI/UX)

phitechsolution.vercel.app

- Designed and developed a corporate website for a mould manufacturing and industrial solutions company with optimized performance and clean visual layout.

MediFlow (React.js, REST APIs, UI/UX)

mediflow-ashen.vercel.app

- Built frontend for an AI-powered clinic management platform with appointment booking, WhatsApp automation, patient records, and real-time analytics.

Estimo (React.js, REST APIs, Responsive Web Design)

estimo-quotation.vercel.app

- Developed a quotation and estimation management app featuring client tracking, quotation creation, and an intuitive dashboard.

Granth Technoforge (React.js, Responsive Web Design)

granthtechnoforge.com

- Built a modern corporate website showcasing company products and services with cross-browser compatibility.

Neuburg Foam Manufacturing (React.js, UI/UX)

neuburg.vercel.app

- Designed and developed a responsive web showcase for a global polyurethane foam manufacturer highlighting industrial and consumer applications.

EDUCATION

Master of Science in IT (M.Sc. IT)

Atmiya University, Rajkot, Gujarat | 2022 – 2024

Bachelor of Computer Application (BCA)

Atmiya University, Rajkot, Gujarat | 2019 – 2022

CERTIFICATIONS

• Google Ads for Beginners

Google

• Canva Design Fundamentals

Canva

• Canva App Development Certification

Canva

ADDITIONAL INFORMATION

- **Hobbies & Interests:** Photography, Travelling (reflecting creativity, attention to detail, and adaptability).
- **Continuous Upskilling:** Actively pursuing advanced React.js design patterns, TypeScript, and cloud-native architecture.
- **Open Positions:** Software Development, Frontend Development, Power Platform Development, and Data Analytics.
